

Record.

Muhlenberg County

is rich in coal, iron, timber, potter's clay. etc., and the most inviting field in Kentucky for investment of capital and pluck.

VOL. V. NO. 13.

GREENVILLE, KY., THURSDAY, APRIL 30, 1903.

50c. PER YEAR, IN ADVANCE.

World in Wealth.

According to some calculations made by The Chicago Inter-Ocean, based on an article by Eugene Parsons in Gunton's Magazine for April, the United States has nearly onefourth of the world's wealth.

The total for the entire world is placed at \$400,000,000,000, of which the United States in 1902 had \$94,-300,000,000, showing that this is the richest nation on the globe.

It is also shown that the wealth i the United States is nearly double that of Great Britian and almost as Great Britian and France.

According to the reports or estimates of wealth in the several nations, it appears that Great Britian, which is put down as the richest country in Europe, has property and money amounting to \$59,000,000,ooo, or \$1,442 for every person.

France comes next among the European nations with \$48,000,000,000 in money and property, or \$1,257 for every person, with \$6,000,000,ooo, more lent in Europe, Asia, America, and Africa.

Germany is the third nation being \$40,000,000,000, or \$709 for every person, with \$8,000,000,000 more lent or invested abroad. Russian comes fourth, with \$32,000,-

According to these same authoritie the United States has wealth of \$2,235 per person, Australia has \$1,-229, Denmark \$1,105, Canada \$980, and Holland \$878 person. Among all the nations the percentage of debt to wealth is lowest in the United States. The British debt per person is \$89, the French \$148, the German \$55, the Russian \$32, the Canadian \$50, while the debt per

States is \$915,370,000, while that of Great British is \$3.688,528,252, The National debt of the United

United States not only has the largest wealth of any nation of the world, but also the smallest public

With these figures before us it is not to be wondered at that the other nations of the world look with envy deformed. Hence in an article on greatest in wealth, as in all other the feet which would be of practical
